

Securing Your Rental Home

Secure your rental home with the below mentioned tips .

Secure The Windows

Opt for toughened glass and make sure the window locks works properly.

Upgrade The Doors

Switch to stronger doors, with deadbolts or chain locks.

Know Your Neighbors

They can help to keep your rental home safe when you're away.

Install External Lighting

You can add good outdoor lightings, specifically near the entrance.

Get An Alarm System

Install a home security system or motion sensors to keep the property safe.

Remove Potential Hiding Places

Keep trees and shrubs well-trimmed so that no one can use it as a cover.

Hire A Property Manager

He will keep the property in best condition even when you are away from your rental home.

Opt For Renters Insurance

It will cover burglaries, water damage, vandalism, fire damage etc.
